

Propel

Ready to propel your business beyond the competition and into the future?

Propel is a one-year training program developed as part of the Government of Saskatchewan's Scale Up for Entrepreneurs Initiative. This training, designed specifically to help Saskatchewan women grow and scale their business, provides opportunities to obtain training certifications and have access to coaching and mentorship.

Recognizing that women entrepreneurs' needs are different between early-stage business versus more mature ones, WESK has designed Propel to meet women entrepreneurs where they are.
